Fernando Boza

PROFILE

I'm a 3D artist by trade, with years in agency and marketing environment. While working in Paris I fell in love with the complex and beauty in code and fully transitioned to Computer Science. I build full stack and front end solutions revolving around users and the MO.

WORK EXPERIENCE

Software Developer

2018-2020

Primestream, Miami, FL

Maintained and updated the front end for the Xchange and ReviewHub platforms respectively. We used Angular 7+ to call, validate, and sanitized Restful API's implemented by Java and PHP servers. We ran agile sprints ranging from 2 weeks - 1 month.

I was given the task to designed a small widget for a client, which included dozens of user inputs, a video timeline player with AI generated content, the final result won an Award.

Built many custom component from video players, to recursive components for tree and hierarchy rendering.

Fixing bottlenecks, applying DRY and better practice protocols on library of components.

Languages: Typescript, HTML5, SCSS, and jQuery.

Database: MongoDB and MySQL.

Designer and Developer

2017-2018

THR33FOLD, Miami, FL

SKILLS

| | | |
|---|----------------------|---|
|  | Backend Development | |
| | Node, | 3 |
| | Express, | 4 |
| | Spring, | 3 |
| | Django | 4 |
|  | Frontend Development | |
| | Angular IO, | 4 |
| | React, | 4 |
| | jQuery, | 5 |
| | HTML5, | 5 |
| | SCSS | 5 |
|  | Databases | |
| | MongoDB | 3 |
| | PostgreSQL | 3 |
| | SQLite | 2 |
|  | Cloud | |
| | Heroku | 3 |
| | DigitalOcean | 2 |

WORK EXPERIENCE (continued)

I built the in office software for observing clients social media stats. The system was built on the **MERN** platform. Using Redux for managing state between the calendar, social media mockup post, and comment system.

My main tasks varied from building on Wordpress sites, and creating content.

Wordpress Developer

2016-2017

Social Wolf Media, Miami, Fl

I was responsible for designing, developing, updating and managing all of our Wordpress websites. Specializing on e-commerce and subscription projects.

We hosted majority of our clients on a VPS on GoDaddy which I would create new instances and manage server settings.

Software Dev Writer

2015-2017

BeMyApp, Paris, Île-de-France

I was in charge of researching the Node ecosystem and creating tutorials for web and mobile developers. Wrote a series of articles ranging from ES6, Electron, Node, SocketIO, AngularJS and more.

Community Manager

2014-2015

BeMyApp, Paris, Île-de-France

Managed EMEA communities, building client relations, handled all the social feeds and logistics for hackathons, workshops and events.

EDUCATION

B.A Fine Arts major Computer Animation

2007-2010

Miami International University of Art & Design
